Email: jcuenca633@gmail.com

I am a **Software Developer** with a proven track record of designing, developing, and deploying high-performance web applications. I specialize in **both frontend and backend development**, leveraging modern frameworks, database management, and API integrations to build scalable and secure solutions.

With a focus on efficiency, clean code, and user experience, I develop applications that meet business needs while maintaining maintainability and performance. I stay updated with emerging technologies and best practices to deliver innovative and future-proof solutions.

Education

Tertiary:

Mabini Colleges: 2021 – 2025 Bachelor of Science in Computer Science (CUM LAUDE)

Senior/Junior High:

Mabini Colleges: 2019 - 2021 TVL Computer Programming

Primary:

Mantagbac Elementary School: 2014

Work History

February 3, 2025 – April 15, 2025

Maryland USA

Senior Web Developer (remote)

During my time at FRED Financial Services, I developed a fully functional and responsive website, ensuring an optimal user experience across various devices. By optimizing front-end code and implementing efficient caching strategies, I significantly improved website load times, leading to faster performance and better user engagement.

Additionally, I enhanced website security by identifying vulnerabilities, applying necessary patches, and regularly updating software components to protect against potential threats. To improve the website's visibility and reach, I implemented strategic content updates.

My work at FRED Financial Services combined technical expertise with a strong focus on user experience and security, ensuring the website remained efficient, secure, and highly accessible to its users.

June 2024 - August 30, 2024

Frontend Web Developer (Internship)

During my internship, I developed and maintained responsive web interfaces using HTML, CSS, JavaScript, and Codelgniter. I played a key role in building a clinic management system, focusing on frontend design to enhance user experience.

Collaborating with designers and backend developers, I ensured seamless integration and functionality. I also implemented new features and optimized existing ones to improve performance and usability.

This experience strengthened my technical skills, teamwork, and problem-solving abilities while keeping me updated with industry trends. It reinforced my passion for web development and continuous learning.

CERTIFICATIONS:

Computer System Servicing NC II

Successfully passed the Computer System Servicing NC II, demonstrating proficiency in hardware troubleshooting, software installation, basic network setup, computer assembly, and diagnostic tools utilization.

Scaling up an IT Startup: Strategies for Growth and Transition

Department of Information and Communications Technology (DICT)

Completed a comprehensive program focused on strategies for scaling IT startups, including growth planning, operational transitions, and leveraging technology for sustainable business expansion.

Skills

Applications: Figma, Canva, Microsoft Office, Excel, Adobe Photoshop

Languages and Backend: HTML, CSS, JavaScript, Java, NodeJS, Express, EJS, PHP

Frontend Frameworks/Libraries: React, jQuery, Bootstrap, Tailwind, Shadon

Database: MongoDB, PostgreSQL

Library: jQuery

Tools: Git
